END OF THAW TRIAL NEAR.

The Strain Upon Those Attending the Trial Has Been Severe.

New York, March 18.—"Thank God, the end is in sight!"

This was the fervent whisper of District Attorney Jerome at the Thaw trial Friday, murmured lond enough to allow the reporters to hear, following a favorable decision by Justice Fitzgerald regarding the Hummel affidavit.

The strain on those attending the trial has been severe. Justice Fitzgerald has shown the effects of it, as have the lawyers for the defense and the district attorney. When Mr. Jerome asked for an additional 15 minutes Friday at the usual hour for adjournment, Mr. Delmas protested, declaring that his endurance has been stretched to the breaking point. He would not consent to another minute of extra session. Mr. Jerome did his best to get from Mr. Delmas an estimate of the length of time that would be required to complete the sur-rebuttal, but Thaw's lawyer declined to give any suggestion on this line.

It is generally believed, however, that Monday and Tuesday will see the close of evidenc and Wednesday and Thursday wil be used in summing up. There is every reason to believe that Friday will put the fate of Harry K. Thaw in the hands of the jury unless some unexpected development occurs.

The sensational affidavit, which Mr. Jerome fought so hard to get into the evidence, will probably be read in court Monday. Lawyer Hummel testified early as to its tendency and through other witnesses Mr. Jerome established the fact that photographic and carbon copies of the affidavit were in existence. He then asked that the affidavit be read but Lawyer Delmas, for the defense, objected, as time for adjournment had come. It is not thought that Mr. Delmas will object to its reading on Monday.

The affidavit gives Evelyn Nesbit's story of the wanderings of herself and Thaw on the continent, during which time according to the affidavit, Thaw beat her several times in an effort to make her swear to a document charging White with having drugged and attacked her when she was a girl of 15 years.

The affidavit also declares that Evelyn Nesbit submitted to the lashings, declaring that White had never wronged her, a sworn statement in direct contradiction to her story instead of what she told Thaw in Paris.

For a few minutes Evelyn Nesbit Thaw was on the stand again Friday. Except for looking a trifle paler and perhaps thinner, she was the same young woman in every appearance who testified to the most remarkable story of the trial.

Three Workhouses Destroyed.

London, March 18.—Three big warehouses in the first burg district of the industrial center, were gutted by fire Saturday afternoon. Loss is estimated at $1,000,000. Starting in Featherstone street in the premises of Cox & Co., hat manufacturers, the flames fanned by a brisk wind, leaped across the street and enveloped the establishment of the Maxime Co. of wood turners and then spread to the adjoining warehouse of Green & Co., shoe manufacturers. Owing to the strength of the wind, it appeared for a thime as though the whole block of adjoining property would be destroyed, but after three hours of hard work, the firemen gained control of the situation.

Postal Operators Walk Out.

New Orleans, March 18.—About sixty-two operators in the employ of the Postal Telegraph company here walked out Saturday morning. The men say it was recently announced that there would be a general increase in wages of 10 per cent, and that when the increase came, it only applied to the regular men. The extra men then walked out, and the regular men went with them.

ASSASSIN FIRES ON TOM WATSON'S SON

Two Loads Were Discharged Through Bedroom.

THE FIRING FAILED OF PURPOSE

Believed that Those Who Used Guns Were Making Disturbance in Order to Draw Their Intended Victims In. to the Open.

Augusta, Ga., March 18.—Investigation of shots fired into the bedroom of J. D. Watson at Thomson, Ga, at 2 o'clock Friday morning, indicate the existence of a plot against either Thomas E. Watson, or his whole family.

It develops that several shots were fired in the back yard of the home of Oscar Lee about 10 o'clock Friday night, with the apparent purpose of enticing him into the yard, since none of the shots were directed at the house.

At 2 o'clock two loads of shot were fired through the window into the bed room of J. D. Watson, son of Thos. E. Watson, but none of the shot went near the bed.

Mr Watson, instead of going into the yard, telephoned Sheriff Hawes, and a party made search of the premises, but no clew was obtained.

Oscar Lee is a son-in-law of Thos. E. Watson, who, it is known, has personal and political enemies in that section of the state where he lives.

The affair has caused considerable excitement and indignation from the entire community.

Hon. Thomas E. Watson is at present in Florida.

Saloon Keeper Converted.

Chicago, March 18:—A dispatch from Litchfield, Ill., says that nearly $1,000 worth of whisky, wine and high grade intoxicating beverages of all kinds was poured out on the public thoroughfares here in the present of thousands of spectators as the result of the conversion of J. E. Teany, a saloon keeper. The barrels and bottles were smashed from a large dray, and the ex-saloon keeper conducted the smashing. All the protestant ministers of the city took a stand on the dray and after all the liquor had been destroyed, the vast crowd joined in singing "America." Teany's conversion was brought about by the revival meeting now being conducted by Evangelist Violett, of Shelbyville, Tenn., at the Christian church.

Socialists Favor Proposition.

Paris, March 18.—L'Humanite prints an article signed by M. Jaures, the leader of the socialists in the chamber of deputies saying that his party will offer a resolution in the chamber proposing the creation of a committee having judicial powers to inquire into and examine the papers sequesterated at the time of the banishment of Mgr. Montagnini, the papal nuncio. M. Jaures declares that a full ventilation of the papers is necessary as the partial knowledge of them has but favored intrigues and propagated legends. The social leader thinks there will be a unanimous vote in favor of his proposition.

Richard Wray Found Guilty.

Birmingham, Ala., March 18.—Richard Wray, charged with the killing of George Freeman, two years ago, was found guilty of murder in the second degree, and sentenced to ten years' imprisonment. Freeman was well known here, and came from Boston, where several of his relatives are also artists. Wray is well known in sporting circles, having come here from Nashville, Tenn. The case has attracted wide attention. Harry Matthews, a well known baseball player, who is signed with New Orleans for this season, was i nthe room at the time of the killing, and was a witness in the case.

LaGRANGE TANK MAY BE SH[illegible]

Determined Fight is To Be Made on the LaGrange Dispensary.

LaGrange, Ga., March 18.—The large number of LaGrange citizens opposed to the local dispensary have called a mass meet for next Wednesday, for the purpose of arranging for a vigorous campaign to close the dispensary, and again place Troup in the dry counties. The saloons of West Point and the Hogansville dispensary have already been voted out, leaving the LaGrange dispensary the only place in the county for the legal sale of whisky, and the only thirst allaying joint between Atlanta and Opelika.

A vigorous, persistent and determined fight is going to be made by the prohibitionists to close the sentiment of the county claim that it will go dry by an overwhelming majority

As a profitable and money-making institution the dispensary has proven a great success, though, as shown by this call for a mass meting to take steps to close its doors, opinion is divided as to whether it is the best solution of the whisky question.

FIND HUMPHREY NOT GUILTY.

Jury at Millen, Ga. Acquits Humphrey of Killing Daniel.

Millen, Ga., March 18.—East-Humphrey was found not guilty of the murder of J. B. Daniel. The trial had consumed four days, and wide interest had been manifested. When the announcement of the verdict was received, Humphrey shook hands with the members of the jury and with Judge Rawlings, also receiving the congratulations of many of those who had thronged the court room.

Humphrey shot Daniel some weeks ago, when the two, driving in their buggies, met on the public road. Humphrey declared on the stand that he had fired in self-defense, as Daniel was reaching for a weapon.

Both men were prominent farmers, with a wide relationship. The trouble between them, Humphrey alleged, had been caused by Daniel's remarks about Mrs. Humphrey.

Louisville, Ky., March 18.—The street railway strike in Louisville, Ky., has been adjusted and a complete service was restored. 65 MINERS DIE IN MINE EXPLOSION

Disaster Occurs In Coal Mine Near Forbache, Germany.

FEW MEN IN MINE ESCAPED

Prussian Government Mines Are Also Scene of Disaster, 22 Men Losing Their Lives by Breaking of Cable as They Descended into Mine.

Forbache, Germany, March 18.—An explosion of fire damp in the coal mines at Kleinfrosseln, near here, on Friday night, resulted in the death of sixty-five miners, and the injury of twelve others.

The disaster occurred between 10 and 11 o'clock in a small gallery in which eighty miners were at work. Three of the men are still missing.

The immediate cause of the disaster has not yet been established.

The mine belongs to Herr Wenie, a national liberal member of the reichstag.

Saarlouis, Rhenish Prussia, March 18.—Twenty-two miners were killed Saturday morning at the Gerhard coal mine.

The miners were descending into the mine through one of the shafts in a cage to start their daily labors. The cable which was attached to the basket in which the men were, broke and precipited its human load to the bottom of the shaft.

The mine is a government property belonging to Prussia.

Richmond, March 18—Ten men are reported entombed by an explosion in the Bond Coal company's mine at Greeneo, Va.

Grover Cleveland 69 Years Old.

New York, March 18.—Ex-President Grover Cleveland, who was born on March 18, 1837, will complete his sixty-ninth year next Monday. Last March some of his friends passed around quietly among themselves a suggestion that each should write him a letter or send a telegram of birthday greetings. Soon after some of those closest to him formulated plans for a popular national demonstration in recognition of the event of next Monday. These preliminary arrangements which were completed in almost every detail, were made without consulting Mr. Cleveland. When he became acquainted with them he declined the proffered honor, while recognizing the spirit which had prompted it. There will, therefore, be no formal celebration either in Princeton or elsewhere. Mr. Cleveland is now in the south taking his usual spring outing.

Ohio River Invades Shipping Port.

Louisville, Ky., March 18.—The Ohio river which has been rising rapidly for three days Saturday morning invaded the shipping port and that section of the city known as the "cut off." Mayor Barth has notified all residents of the "cut off" to leave their houses at once and the board of public safety Saturday ordered firemen and details of police with a number of patrol wagons to go to the threatened sections and remove the people by force, if necessary. The crest of the flood is expected some time when a stage of 40 feet is reached, just one foot lower than the January flood, which is predicted by the local weather bureau. The water is not expected to do much damage to the business section of the city, but it is already half way to May street on Fourth street.

Flood Situation at Cincinnati.

Cincinnati, O., March 18.—At the rate of a little more than one-tenth of a foot an hour, the Ohio continued to rise throughout the night and Saturday there was no indication of any immediate relief from the flood, which has crept up over the lowlands and into the cellars and houses. That the river will pass 60 feet when the crest arrives here Sunday, seems a certainty, and fears are still expressed that the 65-foot stage reached in January will be passed.

Municipal League Held One of Largest Meetings For Years.

PARTIAL TICKET NOMINATED

The Nominations Were Received With Tremendous Applause—Many Enthusiastic Addresses—League Determined to Win—The Platform.

For Mayor—S. M. Davis.

For Aldermen—S. M. Mixson, H. S. Graves, S. J. Burnett, A. L. Vidal.

For Members Board of Public Works —J. H. Vidal, H. L Phifer.

"Your committee on nominations desire to make no further nominations for city officers." E. Lartigue, chairman; James Chesnut, secretary.

That was the substance of the report of the committee on nominations at the meeting of the Municipal League Monday night, which was presided over by Col. E. C. F. Sanchez, with R. J. Holly, secretary, and which was one of the largest attended and most enthusiastic political meetings ever held in the city. The hall at 113 East Union street, where the meeting was held, was crowded to its utmost capacity, there not being near a sufficiency of chairs, and men were standing around in groups in the adjoining rooms, for lack of accommodation in the main hall.

There were many enthusiastic talks, and it was plainly evident that the League is determined in its effort to elect its ticket. The League appeared perfectly satisfied over the nominations of the committee, and loudly applauded the report. Every member present was full of enthusiasm, and left the hall with a full determination to stand by the ticket as presented and ratified.

After a motion was carried to the effect that a campaign committee consisting of five members including the chairman, be appointed, and a resolution of thanks to the committee on nominations was passed, the meeting adjourned until Thursday evening of the present week. This meeting will be a public one, and a cordial invitation is extended to all.

For reasons best known to the more conservative element of the League, it has been deemed advisable to retain the platform as the private property of the League until Monday night, when it was given out for publication, and is as follows:

proceeded to explain the object of the meeting, and had the secretary to read the following platform and resolutions:

Platform and Resolutions.

Be it Resolved:

1. That we favor a safe, economical and business-like administration of the affairs of the city.

2. That we heartily approve of a strict and impartial enforcement of all laws and ordinances intended to provide for, promote or preserve the peace, happiness, safety or morals of the community.

3 That we are fully convinced that driving the open saloon from our city has wonderfully improved its social, moral and financial condition; that we most heartily favor the utmost possible vigilance and rigor in suppressing blind-tigers, houses of prostitution and gambling dens, and that we pledge our utmost endeavor to make and maintain a clean city to which patrons of the University of Florida need not be afraid to send their sons.

4. That we are heartily in favor of municipal ownership of public utilties, and are convinced that the profits from the water and light plants would amply suffice to create a sinking fund sufficient to retire the bonds at maturity, and in the meantime provide water, light and power to our citizens much cheaper than are now being furnished in any city dependent upon private ownership for those public necessities.

5. That we favor permanent public improvements as rapidly as the funds of the city will warrant, and believe that in the years to come the beauty and permanent character of the improvements being made and contemplated, will stand as lasting monuments to the wisdom and business sagacity of the officers who have done so much toward making our surroundings attractive to those people desiring to locate in a progressive city.

6. We also favor an arrangement by which any property holder, who feels unable to pay cash for the improvements which may abut his property, may be allowed to pay the [illegible] in four [illegible] annual installments, [illegible]

Declaration of Principles.

1. Resolved, That we are in favor of the advancement and improvement of the city.

2 We are in favor of the public work being done by our citizens who are the taxpayers.

3. We are in favor of a strict supervision of all work and a cautious expenditure of the public money.

4. We believe that all public work should be let out by contract to the lowest bidder.

5. We believe that all contracts or work of the city should be taken or let to persons who are nowise interested in the city government, and we are opposed to any city official being interested in any such contract or work.

6. We believe that all supplies acquired by the city should be purchased from parties who have no interest in the city government, either individually or as a firm or corporation.

7. We are in favor of the lowest tax possible to maintain the government.

8. We believe in equity as to the burden of government and that the rights of the poor should be equally respected as the rich, and as zealously cared for and guarded.

9. We are in favor of a strict enforcement of the laws and ordinances of the city.

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. SUNDAY AT TABERNACLE.

The Two Services Closed the Fourth Annual Chautauqua Session.

The afternoon and evening services at the Tabernacle closed the fourth annual session of the Florida Winter Chautauqua, which has been a most delightful as well as a very instructive one.

In the afternoon at 4:30 there was a vesper service, which was conducted by Rev. Thos. P. Hay of the First Presbyterian Church, who consented to officiate for Dr. Clarence B. Strouse. This service was well attended, and was most impressive.

In the evening, beginning at 8 o'clock, there was a short song service, followed by an address by Mrs. Laura G. Fixen of Chicago, one of the most widely known women lecturers in the United States, who has accomplished a great deal of good for the temperance cause through her efforts. Mrs. Fixen's address was one of the most interesting of the two-weeks' session.

The Chautauqua for 1907 was a great success in every way, and was one of the most largely attended ever held in Florida.

High School Victorious.

Attorney Evans Haile represented the prosecution, while Attorney Robt. E. Davis appeared for the defense.

Dr. Strouse to Chicago.

The Florida Winter Chautauqua having closed, Dr. Clarence B. Strouse left Sunday for Chicago, where he expects to remain a few days.

Dr. Strouse will assist Rev. George R. Stuart in a big union revival, which will be held in Houston, Texas, beginning in early April.

The sessions of the Winter Bible Conference and the Florida Winter Chautauqua for 1907, both of which were under the personal direction of Dr. Strouse, their promoter, were the most successful ever held here, and he deserves the thanks of the community.

Prof Holloway Here.

Among the prominent visitors to this city, his former home, is Hon. W. M. Holloway, State Superintendent of Public Instruction, and one of the most widely known citizens of the State.

Breaks Up a Cold in Ten Hours.

Breathe Hyomei and Get Quick Relief. Cures all Bronchial Troubles.

As a usual thing a remedy that has immediate action contains powerful drugs that should be used sparingly. This is one of the reasons why the ordinary tablets that are sold for coughs and colds should not be taken by people with a weak heart, as they have a dangerous stimulating effect.

When Hyomei, however, is breathed quick relief is obtained in a natural way. Its healing medication goes right to the spot where the disease germs are present, at once soothing and healing the irritated mucous membrane. The action in this way is similar to spreading a soothing salve upon a burn.

No other medicine for the cure of coughs, colds and bronchial troubles is as rational as Hyomei. Breathing it through the neat pocket inhaler which goes with every outfit, it can be used either in the nose or mouth, thus getting full medication into the nasal passage of the throat and lungs as desired. It gives almost instant relief in all affections of the bronchial tubes, and is guaranteed to break up a cold in ten hours. This guarantee is given by one of the best known druggists in Gainesville, J. W. McCollum & Co., with every Hoymei outfit they sell.

A complete Hyomei outfit, consisting of a bottle of Hyomei, an inhaler that can be carried in the vest pocket or purse, and a medicine dropper, costs but one dollar, with a guarantee that if it does not give satisfaction the money will be refunded.

Should extra bottles of Hyomei be needed they can be obtained for only 50c; the inhaler lasts a life-time.

THE HOLDER-CREWS AFFAIR.

Further Particulars of the Tragedy, Which Was Deeply Regretted.

Santa Fe, March 18 —The trouble between two of our most prominent citizens on last Thursday, ending in the serious cutting of S. L. Crews by Ivan Holder, has cast a gloom over the entire community. The trouble grew out of a dividing-line fence between Mr. Crews and Mr. F. D. Colson of Jasper, the step-son of Mr. Holder. Having always been confident friends, Mr. Holder it seems was expostulating with his friend about some language Mr. Crews had used in presence of his family. Mr. Crews become enraged and struck Mr. Holder, when Holder, thinking himself not capable, owing to his age, to cope with the man, used his knife. He is an old Confederate veteran, 66 years old.

Mr. Crews is in the prime of life. The affair is deplored and regretted by all, none more than the parties themselves.

While Mr. Crews is painfully cut, it is not now thought that his wounds will prove fatal. The writer was with him today; he is resting as well as could be expected. He expresses regret for his actions and has invited all the Holder relatives to come to see him. Mr. Crews is a quiet and peaceable citizen until aroused. He is considered nervy, but met one who is equally as nervy.

J. C. Crews of Yale College, New Haven, Conn., son of S. L. Crews, returned home Sunday, and is at the bedside of his father. Cephus, as he is called, is a bright young man, and his many friends are glad to greet him.

J. M. Adams and wife of Wilmarth were visiting Capt. Chas. Hinson and wife last week. Capt. Hinson is their son-in-law.

Capt. McGregor made a flying trip to Live Oak Saturday, and will return today.

It is distressingly dry here. The farmers are greatly retarded in their work.

Burhans Testifies After Four Years

J. E. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured and cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." W. McCollum & Co.

One Man Cuts His Own Throat.

Akron, O., March 18.—Thomas L. [illegible] of a section gang on the new line of the Pennsylvania railroad at Barberton had for several months suffered from a fear that he might be responsible for some terrible accident, and pressure on Saturday became too great, and he committed suicide He received an order to repair a frog [illegible] mile east of Covington and sending his men to the point, he went in the opposite direction and cut his throat.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. In writing mention reading this offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

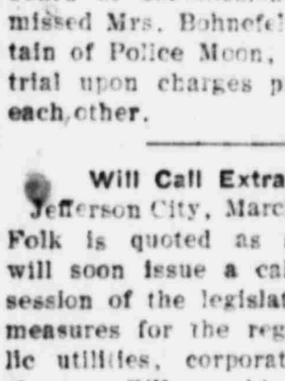
SHORT TALKS BY L. T. COOPER.

THE STOMACH.

My but peoples' stomachs do cause a lot of trouble. I offered to wager some doctors in St. Paul, Minn., that one half of all sickness is caused by the stomach. After I assured them that my medicine did nothing but put the stomach in shape and they had spent a day listening to what people who called on me had to say, they had to agree with me. They heard people come in and tell me that for years they had been near the grave with Bright's disease, or lung trouble, or kidney complaint and all manner of diseases and that the New Discovery had cured them. Of course these people were mistaken, it was nothing but their stomachs. As a matter of fact when the stomach gives out most everything else is thrown out of order too.



C. H. POWELL.

When a person feels tired and dull and despondent, is loosing flesh and don't sleep well, has a poor memory, a bad taste in the mouth, a coated tongue, and other troubles he's liable to believe a lot of things are the matter with him. Nine chances to one it's his stomach. I've seen Cooper's New Discovery bring back health to too many people in just this shape to believe anything else. Here's a letter about it:

"I suffered for a long time without knowing just what was the matter with me. I seldom felt like eating. I lost greatly in weight. My digestion was extremely poor and when I did eat I invariably suffered afterward. I was constipated and frequently suffered from nerve racking, violent headaches. When I heard of what the Cooper remedies were doing for others I resolved to try them."

"Relief came with the first bottle. My appetite and digestion improved rapidly. I am no longer constipated nor do I have those dreadful headaches. I sleep well and am gaining flesh." C. H. Powell, 13 Harrison Addition. Duluth, Minn.

We are selling immense quantities of these medicines and our customers express great satisfaction.

Alachua county is the fifth of importance in the naval stores industry of the State.

DISEASE AND THE SYMPTOM.

The physician who contents himself with smothering the symptoms of a disease, instead of focusing his energies on discovering its origin and applying a permanent cure, is hopelessly out of line with the modern method of medical practice. He is guilty of sin against the patient and against his own profession. This for the simple reason that he is aggravating the ills of the former and reflecting discredit upon the latter.

The same reasoning applies to those individuals who set out to solve our social and economic problems. Philanthropy which relieves suffering or redeems isolated cases of vice without making a study of the causes of both, is, at best, ill-advised and largely ineffective.

America has had much of this brand of charity It is refreshing to discover, in the case of Mrs. Russell Sage, that there is a tendency toward the more logical and the only permanently hopeful direction.

She has just set aside $10,000,000 for, broadly speaking, "the improvement of social and living conditions in the United States." The plan includes an intelligent and scientific investigation into the "causes of adverse social conditions, including ignorance, poverty and crime." Expenditures in this direction solely would condemn itself as hopelessly academic In conjunction, however, with the research, there is to be an orderly, well-directed distribution of assistance to institutions tending to alleviate all three of these conditions. The fund has been placed in hands sufficiently competent to guarantee its judicious investment.

In other words, while the hungry man will be given a square meal, the naked man suitable clothes and the criminal aid in escaping too harsh consequences of his own deeds—the custodians of this fund will get below the surface, seek to discover the cause for hunger, for nakedness, for crime, and to devise practical means for the elimination or minimizing of all three.

There can be no question that many of these adverse symptoms grow out of diseases which can be largely remedied. There is likewise no doubt that the most discerning and kindly help will be wasted in isolated instances, the result of inherent and self-invoked causes.

The doctrinaire and the man of action, under an equal yoke, may be relied upon to solve many intricate problems.—Atlanta Constitution.

PUBLIC LAND GRABBERS.

In order to prevent as far as possible the custom which is alleged to have prevailed among some naval stores operatives and lumbermen throughout the country from gobbling up the public timbered lands, President Roosevelt on February 12 of the present year, issued an order to the effect that no patent, final certificate or other evidence of title should be issued until an officer authorized to make field examination should make such examination.

This order was issued with the anticipation that Congress would make sufficient appropriation to cover expense of same. This that body failed to do, however, which resulted in revoking of the original order by the following circular, under date of March 12, a copy of which has been furnished to the United States land office here.

"My order of February 12, 1907, relating to the issuance of evidence of title under the public land laws, is hereby canceled, for the reason that Congress did not appropriate an amount sufficient to enable the Commissioner of the General Land Office to properly carry out the purposes of that order, which were to have such examination made of all applications for patent as would facilitate the issuance of title to bona fide settlers and home-makers, would reduce illegal entries to a minimum, and bring the work of the Land Office up to date. With the amount actually appropriated it is not possible to carry out the order, or to provide with certainity for the detection of fraud without causing unreasonable hardship to bona fide settlers and home-makers.

"In order to accomplish as much as can be accomplished with our present means in preventing illegal acquisition of public lands the Commissioner of the General Land Office will detail all his available field office force in such manner, by concentration or otherwise, as will as effectively as is possible with the actual appropriation restrict fraud, enforce the existing laws, and promote the bona fide settlement of public lands by home-makers.

Verdict for Dr. Pierce

AGAINST THE

Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for $200,000.00 damages.

Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business; furthermore, that no alcohol, or other injurious, or habit-forming, drugs are, or ever were, contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatever, and that Mr. Bok's malicious statements were wholly and absolutely false.

In the retraction printed by said Journal they were forced to acknowledge that they had obtained analyses of "Favorite Prescription," from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs!

These facts were also proven in the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wickedly defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base slanders were refuted.

President Roosevelt and President Elliott both want to achieve the same end in football. The latter wants to keep the players from getting killed, and the former wants to toughen them up so they won't mind it.

ENGLISH HALL MARKS

The True Ones Are the Leopard and the Lion.

LEGACY OF THE MIDDLE AGES

The System Invented by the Goldsmiths' Company of London Is a Lasting Index to the Age and Genuineness of Old Silver Articles.

Every mark on your old silver means something, and if you care to be sure about its age or maker a study of these marks and the system is essential. A record has been kept at Goldsmiths' hall, London, for five centuries of all annual date letters and of the registered silversmiths and their private marks.

In 1337 King Edward III. granted a charter to the Goldsmiths' guild. During the reign of Edward IV. the Goldsmiths' Company of London, as it came to be known, invented and put in practice an alphabetical system of marks, changing each year. There were similar codes in the provincial assay offices.

This system is one of the few benefits of the middle ages which have stood the test of time practically without change. By the provisions of this system we have not only a lasting index by which to judge the age of gold and silver, but we have a guarantee of genuineness.

Neither the date marks nor maker's marks are hall marks, properly speaking, though all marks on silver are commonly referred to as hall marks. The true hall marks are the leopard and the lion. The leopard's head was used first from 1300, and in 1545 a lion passant was added. These marks were stamped into the metal with a die, the metal appearing in a shield or oblong

Until 1550 a small crown appeared above the lion; from 1557 to 1680 the lion followed the outline of the shield body; after that the lion appeared in an oblong shield. These various changes of the hall mark indicate certain fixed periods and are sometimes helpful in determining the age of a piece of silver when the date mark is indistinct. The date letter or year mark first seems to have been definitely adopted about 1518, for, although there was an alphabetical system more than a century before, it is customary to refer to 1518 as an accurate starting

Charles II. raised the standard of the metal and in 1695 the new quality was given a new mark, Britannia sitting in a long punchеon, with a lion's head erased. The standard was found to be too soft for practical purposes, however, and in 1720 there was a return to the old and present standard mark, with the leopard's head and lion passant. Naturally these Britannia pieces are rare.

The Scots began to use their private marks about 1363. At first they used only two letters of the surname. After 1739 the initials were substituted—for example, prior to this date Somerville's mark was La. Afterward it became P. L.

There were four marks on the silver after 1784—leopard's head, lion, date letter and maker's mark. In 1784 the queen's head was added—the government customs mark—making five marks in all. There were changes from time to time in the fixed hall marks which are worth noting. For example, the leopard's head was set in an heraldic following its outlines until 1822, when it began to appear in a rectangular shield of five sides.

After 1696 the head was reduced somewhat in size. In 1720 the leopard lost his head and his shield became obscured and in 1823 his crown was taken away from him. These were all London marks. There were in addition provincial marks. The Edinburgh hall mark dates from 1457. It was a triple turreted castle or tower. The standard mark was a thistle, which was substituted for the assay master's initials in 1757. The date letter cycles began in Edinburgh in 1681.

Glasgow had a curious emblem—a tree with a bird in the top, a bell hanging from one branch and a fish across the trunk, stamped in an oval punch. The Sheffield and Birmingham hall marks were a crown and an anchor respectively, with the lion passant as the standard mark. Dublin had a crowned harp.

Now, to go back to the subject of London marks, I cannot do more than briefly indicate what there is in the subject for those who wish to go into it seriously. Different cities or halls had different year marks. I will deal with the London marks, as being the most important.

Each year had assigned to it a letter of the alphabet, which was stamped on each piece of silver made or assayed that year. When the alphabet was gone they went back to the beginning, adding a slightly different shield to the alphabetical

is to make a perfect copy of an old piece in some alloy and give it a thick coating of silver by the modern electroplate process. Such counterfeits are treated skillfully, hall marks and all being reproduced.

On the bottom or inside of the piece may sometimes be found the granulated or crystallized surfaces left by this process, though these are usually tooled over if in sight. Sometimes English hall marks have been cut from a spoon or other small article of great age and transferred to a larger piece of more modern make.—Country Life In America.

When the World Was a Cube.

There was a time, centuries since, of course, when the learned men of the world really taught that the world was a square, not merely flat, but that it was a cube. The primitive geographers of Egypt, Assyria and China all taught that the world was a "square plane," evidence of which may be found on thousands of ancient monuments in the countries mentioned, as well as in their ancient manuscripts, upon their inscribed tablets of clay and other early literary remains. One of the most curious discoveries ever made in Central America concerning Toltec beliefs, symbols, etc., is that they also had a similar idea concerning the form of what we now speak of as the "globe." A writer on the discoveries made among the monumental ruins of that country says, "They (meaning the Peruvians, Toltecs and Quiches) believe the world to be a cube, suspended from the heavens by cords of gold fastened to each of its corners."

The Aesthete.

Occasionally the Fairlight drawing room supplied a specimen of the aesthete as Du Maurier was then drawing him in Punch. His dress was a complete suit of black velvet and salmon colored stockings. He joined the shooting party, but he generally fell down when the gun went off. That, however, did not prevent his charming the ladies. "You do not look well, Mr. Maudle," said one of these. "Thanks; I am not ill, only tired. The fact is I picked a primrose in the wood yesterday. It seemed sick, and I have been sitting up all night with it."—From M. Escott's "Country Houses."

Birds' Nest Candy.

An American resident of Shanghai sent home recently an advertisement of birds' nest candy printed in English by the manufacturers. The odd screed ran like this: The Candy of the Birds' Nest —Our Candy is prepared of Birds' nest which was famous in all the countries. We made it used with Engines to take the dirty away and then put it into Sugar; there is a great of sweetness, fragrance and whiteness. Every old and young one ought to eat, for it can strong.—Exchange.

SERMONETTES

BY J. MARVIN NICHOLS.

A merry heart is a great microbe killer.

Keep what you have and reach out for more.

Only your enemies will say things that will injure you.

Riches are of far less importance to man than character.

The moment human lips imprison truth, it becomes a lie.

Weaknesses in character grow faster than the strong points.

What you are today you will be tomorrow—only more so.

When love goes out stagnation, suffering and death come in.

One of the greatest powers in the world is patience. It is sublime.

The person who peddles a scandal is no better than the one who starts it.

Borrowing is a sure way of sacrificing the future on the alter of the present.

The man who debates a question until he decides not to act has reasoned too much.

Society is like a wave. It rolls onward, but the great underlying deep is unmoved.

They call the pathway of life "a rocky road," yet the most of us want to stay on it.

That man is regal who can control his appetite, his passions, his tongue and his temper.

The person is not born who will not suffer some sort of shipwreck on life's tempestuous sea.

If the epitaphs were said over and over again in the home there would be fewer tombstones.

Time can never be the measure of a good thing. The coming ages will have a share in it.

Many a woman who keeps the kettle from boiling over fails to work the same racket on her temper.

Fix your whole soul on the one thing in life that counts for you. This supreme act is life's polar star.

"There are five ways of winning success. The first is hard work and the other four are ditto," says some one.

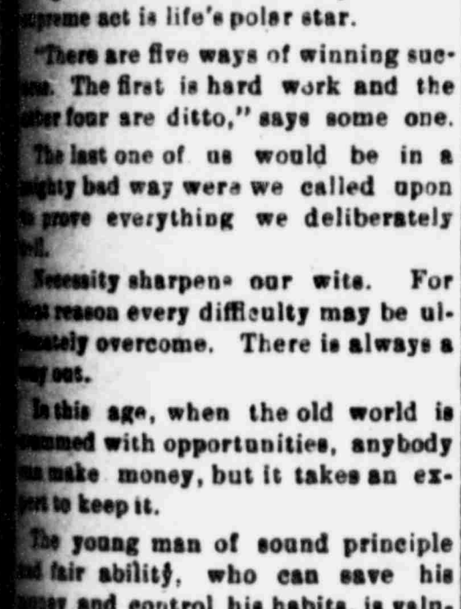
The last one of us would be in a mighty bad way were we called upon to prove everything we deliberately tell.

Necessity sharpens our wits. For this reason every difficulty may be ultimately overcome. There is always a way out.

In this age, when the old world is crammed with opportunities, anybody can make money, but it takes an expert to keep it.

The young man of sound principle and fair ability, who can save his money and control his habits, is valuable to any concern.

Because you can't keep the birds from flying over your head is no sign that you can't keep them from building nests in your hair.



The secret of old age is Health. Use BALLARD'S HOREHOUND SYRUP

And you will have health. Great care should be taken of ones health and Ballard's Horehound Syrup will cure

COUGHS, COLDS, CROUP, BRONCHITIS AND ALL PULMONARY DISEASES.

Mrs. J. H. McNeil, Salt Lake City, Utah, writes: "I am eighty years old and I thank Horehound Syrup for having cured me of coughs colds and other like diseases."

SCALY SORES AS BIG AS PENNIES

Covered Whole Head and Neck After an Attack of Measles—Hair All Came Out—Doctor's Treatment Had No Effect—Suffered 6 Months

CURED IN 3 WEEKS BY CUTICURA COSTING $1.50

"After having the measles my whole head and neck were covered with scaly sores about as large as a penny. They were just as thick as they could be. My hair all came out. I let the trouble run along, taking the doctor's blood remedies and rubbing on salve, but it did not seem to get any better. It stayed that way for about six months; then I got a set of the Cuticura Remedies, and in about a week I noticed a big difference, and in three weeks it was well entirely and I have not had the trouble any more, and as this was seven years ago, I consider myself cured. I used one bottle of Cuticura Resolvent, one box of Cuticura Ointment, and two cakes of Cuticura Soap. I think it a splendid medicine, and I recommend it whenever I can. Mrs. Henry Porter, Albion, Neb., Aug. 25, 1906."

NEGRO DESPERADO CAPTURED.

Ran Miles With Hundreds of Shots In His Back.

Huntsville, Ala., March 18.—Bud Gilbert, a negro desperado who has been wanted by the authorities of Giles county for several months past, was captured in the northern part of Madison county, after a long and exciting chase. The negro was located in a house on the top of a mountain, and Deputy Sheriff Erle Miller was the officer who made the arrest.

The deputy sheriff had the negro cornered and got the drop on him with a riot gun, but Gilbert ran away. He was shot five times by the officer, but the shot proved to be two small to stop him, and, with more than a hundred small shot imbedded in his back, the negro ran several miles. He was finally overtaken and beaten into submission. Gilbert was brought to town and lodged in jail

The negro is wanted for the assassination of a Pulaski citizen, and for shooting his wife. There was a reward for his capture, and he had boasted that he would never be taken alive.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by all druggists. 50c and $1.00. Trial bottle free.

Death Due to Apoplexy.

Seattle, Wash., March 18.—An autopsy was held on the body of Jabes J. Gannon, brother of J. J. Gannon, president of the Hibernian Bank and Trust company, of New Orleans, who was found here. Death was due to apoplexy and not murder, as suspected.

Worked Like a Charm.

Mr. D. N. Walker, editor of that spicy journal, The Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at all drug stores. 25c.

WAS WORK OF WRECKERS.

Rock Island Passenger Train Runs Into an Open Switch.

Little Rock, Ark., March 18—Eastbound Rock Island passenger train No. 6, the Hot Springs-Memphis flyer, ran into an open switch and was wrecked at Cuneo, a loading switch station thirty-eight miles east of Little Rock.

Engineer Killoyne and Fireman Currier, both of whom lived in Argentinia, Ark., were killed and two mail clerks, an express messenger, the porter, negro, and four dining-room-car waiters were injured.

At the Rock Island general offices in this city it is stated that an investigation of the track after the wreck disclosed that the wreck was, without doubt, the work of a train wrecker. It is stated that the switch was opened and locked in that position when the passenger train ran into it.

Helicon Hall Burned.

Englewood, N. J., March 18—Helicon Hall, the home of Upton Sinclair's colony was destroyed by fire at an early hour on Saturday. The blaze was preceded by an explosion which seemed to occur in the ball room which was at the extreme end of the building from the boiler room. The flames spread with such rapidity that the fifty-five colonists had to flee for their lives without having time to save any of their belongings. Five persons injured by jumping from windows were taken to the hospital. The sinclair Co-Operative Colony was established last October and included a number of educators and men and women engaged in itineray pursuits. The Co-Operative servant plan was adopted, the meals being served in common in a large dining room.

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Lagrippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." J. W. McCollum & Co.

Bank Cashier Disappears.

Berlin, March 18.—Cashier Speyer, of the Mueller Industrial bank of this city, has disapeared, leaving a shortage of $130,000. It is considered probable that he lost the money in stock speculations. The bank successfully met a run on it, which began when the news of the defalcation reached the depositors.

CHRONIC ULCERS

EXTERNAL EVIDENCE OF INTERNAL POISON

Whenever a sore or ulcer refuses to heal, it is a sure sign of a diseased condition of the blood. The sore itself is simply an outside evidence of some internal poison, and the only way to cure it is to remove the deep underlying cause. Sores and Ulcers originate usually from a retention in the system of bodily waste matters and impurities. These should pass off through the natural avenues of waste, but because of a sluggish condition of the different members they are retained in the system to be taken up by the blood. This vital fluid soon becomes unhealthy or diseased, and the skin gives way in some weak place and a Sore or Ulcer is formed. The constant drainage of impurities through a sore causes it to fester, grow red and inflamed and eat deeper into the surrounding flesh, and often there is severe pain and some discharge. S. S. S. is the remedy for Sores and Ulcers.

S.S.S.

PURELY VEGETABLE

It is nature's blood purifier, made entirely of vegetable matter, known to be specifics for all blood diseases and disorders. S. S. S. goes down to the very bottom of the trouble, and removes the poison and impure matter, so that the sore is no longer fed with impurities, but is nourished and cleansed with a stream of healthy, rich blood. Then the place begins to heal, new flesh is formed, the inflammation subsides, and when S. S. S. has thoroughly cleansed the circulation the place heals permanently. Special book on Sores and Ulcers and any medical advice desired will be sent free to all who write.
